

OUTDOOR BATTERY CABINET

General Details

High reliability, maintenance free, quickly assembled, applicable to the wild environment. High integration, less ground demand, short construction periods, reduce the construction cost effectively. Perfect thermal design, efficient energy saving and emission reduction, reduce the operation costs effectively. Support quickly assembled and outfit, applicable to the top of the mountain and the scene to install. Dynamic environment monitoring, the alarm signal detection in all directions, alarming information's feeding back in real time.

Features

- High reliability, maintenance free, quickly assembled, applicable to the wild environment.
- High integration, less ground demand, short construction periods, reduce the construction cost effectively.
- Perfect thermal design, efficient energy saving and emission reduction, reduce the operation costs effectively.
- Support quickly assembled and outfit, applicable to the top of the mountain and the scene to install.
- Dynamic environment monitoring, the alarm signal detection in all directions, alarming information's feeding back in real time.

Product Specification

Parameter	Specification
Type	Single tank /double tank
Cabin constitution	1 cabin
Operating temperature	-40°C~+55°C
Compress air conditioner	AC220V cooling capacity:500W
